\$180 per 60-minute session for individual (online) parent coaching

For more information, contact Dr. Altemeier at
leah@leahaltemeier.com.

The children's group curriculum includes child-friendly psychoeducation, skill instruction and practice, as well as motivational tools to encourage home practice of skills. Content draws from cognitive-behavioral therapy (CBT) and dialectical behavior therapy (DBT). Individual parent coaching sessions teach complementary skills to improve communication and coping, address challenging behaviors and emotions, and strengthen the parent-child relationship. Parent sessions occur online weekly at a mutually convenient time.
